THE IRISH POTATOE.

No more of your nonsense 'bout oysters and fishes.

And puddings and dumplings and delicate dishes.

But give me the thing that is more in my wishes—

I mean a good Irish potatoe.

The Dutchean, contented, will sit at his ease.

To feast upon sourkraut, smerekase and cheese.

But who, in his sense, would meddle with these.

When he can get a good Irish potatoe.

The Yankees may boast of their sweet pumpkin pie.

Their pork and molasses together they fry."

But if ever I liked it, I wish I may die.

As well as an Irish potatoe.

Don't go to the doctor, if you should get ill.

For blister, or powder, or plaster, or pill,

But take of the root that may cure and can't kill—

I mean the health giving potatoe.

There is no sort of affliction which mortals endure,

But what the potatoe may possibly cure.

The spleen, the hysterics, the hypo, I'm sure,

Are healed by Irish potatoe.

When you see a damsel with cheeks like roses,

And her company courted by many fine beauties,

Without hesitation you may readily suppose—

She was raised on Irish potatoe.

Now, Mr. Printer, if you will agree,

To take these few words and print them for me.

When I come to town I'll pay your fee,

And we'll dine upon Irish potatoe.

All A. P. A. hostility to McKinley has subsided.

THE CLIMAX is in favor of free silver at a ratio of 32 to 1.

The finances of the country are all right—let 'em alone.

YES Carlisle voted the straight Democratic ticket last November.

Put a dollar's worth of silver in a silver dollar and nobody will object to the fine coining of silver.

GUY BRADLEY is turning the rascals out of the penitentiary as fast as the courts can send them there.

SPEECH SMITH, Republican candidate for Congress, carried Shelby county, to everybody's surprise, and is right close after the pismen.

A GOLD standard does not mean no money but gold money, but that all money shall be as good as gold—can anybody object to that?

It will be well for Democrats and Republicans alike to keep their off eyes on Judge M. Davison, of Lincoln, Republican candidate for Congress.

A WACO man sends us an article on the "Free Coinage of Iron," which we shall publish next week, and which is as proper as free coining of silver at 16 to 1.

THERE IS now and always has been enough money in the National Treasury to pay the Government expenses, and free silver wouldn't put any more money into the Treasury if it were needed there.

WHEN Wat Hardin told the court house audience that certain of Carlisle's five famous propositions were fallacies, he either did not know the meaning of the word fallacy, or thought his audience did not.

JUDGE M. J. DURHAM and Col. John A. Hodges had a fight in the Leader office at Lexington, over Carlisle's visit to Kentucky, in which Hodges, free silver got a small quantity of blood drawn from the side of his cranium.

A FALLACY is an "argument," says Webster, which apparently settles a question, but in reality, is not a proposition, being the second step, or pretended proof of a proposition and when Hardin called Carlisle's five propositions fallacies he exhibited gross ignorance or unpardonable cussedness.

AT FIRST A LITTLE CLOUD.

Spain continues to tinker with the United States. Two more straws have been laid on the camel's back—a note has been sent by Spain to the Power's, complaining that the United States has violated its treaty agreements with Spain; a bill has been introduced in the Spanish House annulling the treaties.

MCKINLEY AND SOUND MONEY WILL WIN AT ST. LOUIS.

In Wednesday's CLIMAX mention was made that McKinley already had enough instructed votes to insure his nomination at St. Louis. Since then, Missouri, North Carolina, West Virginia, Colorado, Wyoming and Washington have instructed him. McKinley will be therefore nominated on the first ballot.

As to the financial plank of the St. Louis convention, the Deyer News paper, the free silver organ, that has watched every convention closely, says: "It will be a gold standard?" Of Friday's conventions, Colorado endorsed free silver, but it also endorsed Senator Walcott, their sound money Senator, and had no clause permitting the Republicans to bolt the convention. Wyoming, while declining free silver, expressly provided for following the Republican standard even with a sound plank. Washington announced straight out for sound money.

The talk of our free silver brethren that a free silver Democratic nominee at Chicago would carry the Republicans of the West is probably only talk. Those Republicans doubtless prefer a sound money Republican to a free silver Democrat.

YES THEY CAN RAISE THE DEAD.

The free silver club which was organized at Nicholasville a week ago, as the result of Hon. P. Wat Hardin's speech at a big meeting Saturday, when it came to a show of necessity eighteen could be counted. Is this a fair sample of strength of the free-silverites who will capture (?) the approaching State convention?—Register.

The Register does not comprehend the resources of the silver men in case of an emergency. For instance, in a recent meeting in Richmond, John Tipton was made committee-man in Union precinct, notwithstanding he has been dead several years. A party or element of a party who can raise the dead can do anything else.

AN ERROEUS IDEA OF MEXICO.

Free silver men delight to refer to the progress of old Mexico, and point with pride to such evidences coming from a silver monometallic country. But they are not aware that Mexico's prosperity comes not from Mexican money, or from any effect of Mexican financial legislation. Money is pouring into Mexico from the United States and invested in undeveloped resources—undeveloped mines, timber, coffee, sugar and grazing lands and many other enterprises. Mexico is put into Mexican investments by such men as the Embry, late of this country, the Greces, late of Montgomery, thousands of others all over the country. Money goes to Mexico just as it goes to Cripple Creek and Middleborough. Mexico's improvement is from the same cause that makes Valley View and Ford grow. Either of those lumber villages, on the border of our country, has had more new houses in a year than Richmond, but the same money legislation prevails at Valley View, Ford, Middleborough and Cripple Creek.

The free silver men know that while citizens of the United States are building and improving in Mexico, that thousands of Mexicans are working for 6 to 16 cents a day? Do they know that the forked-stick plow and the wagon wheels sawed off of the end of a log are to be seen in use in all parts of Mexico? Do they know that thousands of Mexicans sleep on the ground and go barefooted all winter? Do they want to see the poor in the United States that labor in the sun? What is the use of Mexican labor man? How many Mexicans there are who cannot write, who cannot afford shoes, who have not a square meal in a year, the good Lord only knows.

CATTLE TURNED OUT TO GRASS.

The issue of the Breeders Gazette: "By this time it has become a matter of history that last week was the lowest on record for good heavy cattle since the opening of these yards, thirty years ago last Christmas. Two years ago the light handy cattle sold from twenty-five to forty cents lower than the lowest time last week, but the daily list of sales has never showed so many good cattle below \$3.90 as were reported last week." To this the Gazette adds: "The number of cattle turned out on grass from the feed-lots the past few days has been somewhat remarkable. Nearly every commission man at the yards has received advice from his customers stating that owing to the low prices they prefer to hold cattle until July or fall. Nearly all the cattle in the Indian Territory have been turned on grass; also in Western Kansas. Many who have gone to market with the view of buying feeders have returned home and bought their neighbors' cattle out of the feed lots at much lower prices than feeders sell here and turned them out on grass. A letter from an Indian Territory man states that it will be a month before many corn-fed cattle will be shipped owing to a general turning out of cattle on grass. Local cattlemen have advised holding back stock in order that the present accumulation of dressed beef can be moved. The abundant rains and nice weather have made fine pasture everywhere."
